Mr. Mgrdichian gave several suggestions to provide better context. The committee discussed various questions and concerns with the proposed designs. Ms. Demas questioned the abundance of lawns in the property and suggested the addition of pollinators and native plantings. It was questioned whether or not the project would tie into the new sewer system and that this should be discussed with the appropriate committees. A gentleman who stated that he was a doctor on an abutting property joined via zoom to express his concerns. Mr. DeSisto explained that he would work with the gentleman.

The discussion of the possible town solar farm in the vicinity of the new sewage treatment plant was not had and there were no minutes approved. It was noted that admin counsel Jim Wilson would tentatively join the February meeting to give an educational overview in an open hearing basis.

Mr. Weeks moved to adjourn, 2nd by Ms. Demas. Meeting adjourned at 7:40PM.
