

JUNE 3, 2024 FOCUS GROUP

Community Health Focus Group Discussion

The Barnstable County Department of Health and Environment and the local health departments in Brewster, Chatham, Harwich, and Orleans are working with a research firm to conduct a community health needs assessment of the towns on the Lower Cape. A piece of this assessment involves focus groups, which are discussions that provide an opportunity for community members to share their ideas, thoughts, insights, and concerns about community health and related service needs. Please consider taking part in this vital assessment and sharing your experiences about the health and wellbeing of the people living in this unique area.

**Do you have thoughts about healthcare
on the Lower Cape?**

**Are there community services that
would make your life easier?**

**Do you have daily struggles that
impact your wellbeing?**

YOUR VOICE MATTERS!

ORLEANS FOCUS GROUP

**Orleans Town Hall
19 School Road, Orleans, MA 02653**
